- Large, clearly arranged display
- Very easy operation
- Illuminated, excellently readable display
- Small mounting depth 22 mm
- Retrofit at any time
- Option: Casing S
- Optional: Bluetooth Connector S-BC

How much energy does my solar system really supply? Is the board battery fully charged? Are the solar modules shaded or soiled or is something wrong? Is the capacity of the solar modules consistent with the specifications of the manufacturer, or does the system deliver completely different values? All these questions can be answered directly and conveniently with the LCD-Solar-Computer S.

Connection of the LCD-Solar-Computer S to the VOTRONIC Solar Charging Controllers, series SR and MPP, is very easy by means of the supplied plug-and-play control cable of 5 m length. After that, th

Matching to the VOTRONIC modular system (rack units 85 mm), the LCD-Solar-Computer S is executed as panel version. Appearance and mechanics are adapted to the other display modules. The small dimensions of the front panel and the particularly small mounting depth of only 22 mm allow an installation at almost any location.
